

# Register for Summer Tech Boot Camp

Summer Tech Boot Camp is an opportunity for students entering 4th or 5th grade to fine tune their Chromebook, Google, and Canvas skills in preparation for entering a 1:1 environment. Students new to the district, going into grades 6-12, are also welcome.

Students will be shown the basics of a Chromebook along with several shortcut keys to move efficiently around the Chrome environment.

Students will become familiar with the sharing rights, comments, and daily uses of Google Drive. Students will be introduced to Canvas as they complete online discussions and assignments through this tool. Proper keyboarding skills as well as the importance of being a good digital citizen will also be stressed.

## Dates & Location:

Session 1 (July 10, 11, 12 9-10:30AM) at Perry Elementary School
